

# **Request for Proposal (Construction Manager at Risk)**

## **Addenda #2 June 14, 2018**

Below are five topics/questions to be covered during the 30 minute question and answer session during your interview. You may also incorporate these topics during your presentation.

1. Please be prepared to outline your approach to the pre-referendum phase of the project including lessons learned from previous experiences and unique challenges to this project.
2. In the context of the schedule preparation, at a high level please describe alternative phasing approaches that you may have considered for the project construction.
3. Please provide an overview of any programs you utilize to allow student and faculty learning as part of the construction process.
4. Please provide M/WBE performance for five of your most recent Rhode Island projects including anticipated and final participation percentages.
5. Please be prepared to speak to a safety event/issue that has occurred in your company's recent history at an occupied construction site and the steps the company took to immediately address the issue and implement change.
