Questions and Answers

Question

The RFP states that the proposal should not exceed 10 pages, but then requests we include sample matrixes including a design review report, issues log, training plan, and field report. Those samples alone would exceed the page limit even without the other information requested in the RFP. Would you consider increasing the page limit, or excluding certain items from the page limit, such as the sample matrixes, cover letter, and resumes?

Answer: Technical proposal should not exceed 10 pages. Sample documents requested will not count against the 10 pages.

Question

We are interested in submitting our qualifications for the Martin Middle School Renovation – Commissioning Services. I understand there is a 10-page limit to our response and just wondered if that was including team resumes and sample matrixes?

Answer: Technical proposal should not exceed 10 pages. Sample documents requested will not count against the 10 pages.
